POPULATION REPORTS

HAM.-WENT. REGION
PLANNING AND DEVELOPMENT DEPT.

TABLE OF CONTENTS

INTRODUCTION

Section 1

Map of Hamilton-Wentworth Region

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, for:

- Hamilton-Wentworth Region
- Township of Flamborough
- Town of Dundas
- Town of Ancaster
- Township of Glanbrook
- Town of Stoney Creek
- City of Hamilton
- City of Hamilton - Lower City
- City of Hamilton - Mountain

Section 2

Map of Planning Divisions - Hamilton-Wentworth Region

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, tabulated for each of the 30 Planning Divisions

Section 3

Map of Planning Units (Divisions and Neighbourhoods) in the Town of Dundas

Population by Age Groups by Neighbourhood Planning Unit - Town of Dundas

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, tabulated for each of the 31 planning unit neighbourhoods in the Town of Dundas

Map of Planning Units (Divisions and Neighbourhoods) in the City of Hamilton

Population by Age Group by Neighbourhood Planning Unit - City of Hamilton

Population by Single Years of Age and Sex; 5 Year Age Groups; and Various Age Groups, tabulated for each of the 126 planning unit neighbourhoods in the City of Hamilton

INTRODUCTION

This set of population reports was produced by the Planning and Development Department, Regional Plan Division, to compliment reports produced by the Ministry of Revenue, Assessment Division. The purpose of the exercise is to extend valuable information gathered annually by the Ministry by reformating basic census data into geographic areas of interest to Regional and Municipal planners. Other researchers, particularly those with an interest in human service operations and planning, will find the reports useful, providing their areas conform to planning units. These units are called Planning Divisions and Neighbourhoods and are described on maps preceding each section.

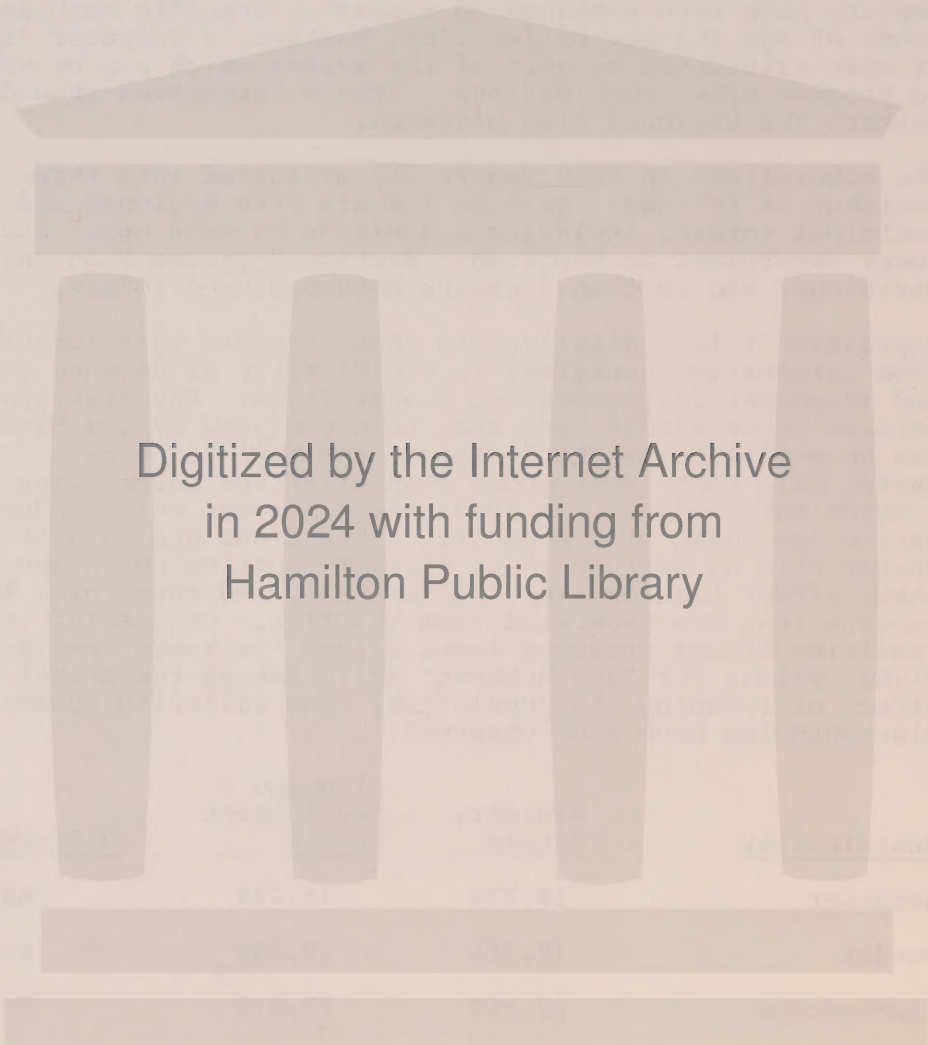

Reports have been designed to summarize specific combinations of age and sex by location, however, a computer file is also maintained as part of the system which can be used to produce other combinations. Those interested should contact the Regional Plan Division.

The tabulations in this report are organized into three sections as follows: Section 1 deals with Regional and Municipal totals, including a division between upper and lower escarpment in Hamilton; Section 2 groups Planning Divisions; and Section 3 groups Neighbourhood totals.

Population totals displayed in these reports were formulated from information contained in the Ministry of Revenue year end (December 31) Assessment Master Files. Any discrepancies between these tabulations and those produced by the Ministry can be explained by the fact that the Ministry uses a Master File that is produced soon after the enumeration process takes place. In 1975, these surveys were conducted during the month of September. Alterations are made to the Master File as part of their regular updating operation and these affect the residency information, and therefore, the reports that are generated from the file. Generally, the resulting affect produces lower values for known ages and higher values for "age unknown" while having the overall effect of reducing the population. The following municipal discrepancies have been observed:

Municipality	Ministry Totals	Planning & Development Totals	Difference
Ancaster	14,334	14,274	60
Dundas	19,315	19,246	69
Flamborough	22,863	22,917	54
Glanbrook	10,057	10,041	16
Hamilton	311,698	310,595	1,103
Stoney Creek	30,011	29,943	68

Two other factors concerning the data should be noted. The first is that 188 persons living in institutions were not included in the base file, and therefore, are not part of the tabulations. The location of these people can be identified by contacting the local assesser's office. The second factor is that approximately 700 persons were included in the enumeration as residents at McMaster University who were not recorded in prior years.
